

Line 26--Durable Medical Equipment/Oxygen--DME, as defined in 42 CFR 410.38, as well as other self-help and personal comfort items related to the palliation or management of the patient's terminal illness, are covered. Equipment is provided by the hospice for use in the patient's home while he or she is under hospice care.

Line 27--Patient Transportation--Enter all of the cost of transportation except those costs previously directly assigned in column 3. This cost is allocated during the cost finding process.

Line 28--Imaging Services--Enter the cost of imaging services including MRI.

Line 29--Labs and Diagnostics--Enter the cost of laboratory and diagnostic tests.

Line 30--Medical Supplies--The cost of medical supplies reported in this cost center are those costs which are directly identifiable supplies furnished to individual patients.

These supplies are generally specified in the patient's plan of treatment and furnished under the specific direction of the patient's physician.

Line 31--Outpatient Service--Use this line for any outpatient services costs not captured elsewhere. This cost can include the cost of an emergency room department.

Lines 32 through 33--Radiation Therapy and Chemotherapy--Radiation, chemotherapy and other modalities may be used for palliative purposes if you determine that these services are needed for palliation. This determination is based on the patient's condition and your care giving philosophy.

Line 34--Other--Enter any additional costs involved in providing visiting services which has not been provided for in the previous lines.

Lines 35 through 38--Hospice Nonreimbursable Service--Enter in the appropriate lines the applicable costs. Bereavement program costs consist of counseling services provided to the individual's family after the individual's death. In accordance with §1814 (i)(1)(A) of the Act, bereavement counseling is a required hospice service, but is not reimbursable.

Line 39--Total--Line 39, column 10, should agree with Worksheet A, line 116, column 7.

4058. WORKSHEET K-1 - COMPENSATION ANALYSIS - SALARIES AND WAGES

Enter all salaries and wages for the hospice on this worksheet for the actual work performed within the specific area or cost center in accordance with the column headings. For example, if the administrator also performs visiting services which account for 25 percent of that person's time, then enter 75 percent of the administrator's salary on line 6 (A&G), and 25 percent of the administrator's salary enter on line 10 (nursing care).

The records necessary to determine the split in salary between two or more cost centers must be maintained by the hospice and must adequately substantiate the method used to split the salary. These records must be available for audit by the contractor and the contractor can accept or reject the method used to determine the split in salary. When approval of a method has been requested in writing and this approval has been received prior to the beginning of a cost reporting period, the approved method remains in effect for the requested period and all subsequent periods until you request in writing to change to another method or until the contractor determines that the method is no longer valid due to changes in your operations.

Definitions

Salary--This is gross salary paid to the employee before taxes and other items are withheld, includes deferred compensation, overtime, incentive pay, and bonuses. (See CMS Pub. 15-1, chapter 21.)

Administrator (Column 1)--

Possible Titles: President, Chief Executive Officer

Duties: This position is the highest occupational level in the agency. This individual is the chief management official in the agency. The administrator develops and guides the organization by taking responsibility for planning, organizing, implementing, and evaluating. The administrator is responsible for the application and implementation of established policies. The administrator may act as a liaison among the governing body, the medical staff, and any departments.

The administrator provides for personnel policies and practices that adequately support sound patient care and maintains accurate and complete personnel records. The administrator implements the control and effective utilization of the physical and financial resources of the provider.

Director (Column 2)--

Possible Titles: Medical Director, Director of Nursing, or Executive Director

Duties: The medical director is responsible for helping to establish and assure that the quality of medical care is appraised and maintained. This individual advises the chief executive officer on medical and administrative problems and investigates and studies new developments in medical practices and techniques.

The nursing director is responsible for establishing the objectives for the department of nursing. This individual administers the department of nursing and directs and delegates management of professional and ancillary nursing personnel.

Medical Social Worker (Column 3)--This individual is a person who has at least a bachelor's degree from a school accredited or approved by the council of social work education. These services must be under the direction of a physician and must be provided by a qualified social worker.

Supervisors (Column 4)--Employees in this classification are primarily involved in the direction, supervision, and coordination of the hospice activities.

When a supervisor performs two or more functions, e.g., supervision of nurses and home health aides, the salaries and wages must be split in proportion with the percent of the supervisor's time spent in each cost center, provided the hospice maintains the proper records (continuous time records) to support the split. If continuous time records are not maintained by the hospice, enter the entire salary of the supervisor on line 6 (A&G), and allocate to all cost centers through stepdown. However, if the supervisor's salary is all lumped in one cost center, e.g., nursing care, and the supervisor's title coincides with this cost center, e.g., nursing supervisor, no adjustment is required.

Total Therapists (Column 6)--Include in column 6, on the line indicated, the cost attributable to the following services:

Physical therapy	-	line 12
Occupational therapy	-	line 13
Speech pathology	-	line 14

Therapy and speech-language pathology may be provided for purposes of symptom control or to enable the individual to maintain activities of daily living and basic functional skill.

Physical therapy is the provision of physical or corrective treatment of bodily or mental conditions by the use of physical, chemical, and other properties of heat, light, water, electricity, sound, massage, and therapeutic exercise by or under the direction of a registered physical therapist as prescribed by a physician.

Occupational therapy is the application of purposeful, goal-oriented activity in the evaluation, diagnosis, and/or treatment of persons whose ability to work is impaired by physical illness or injury, emotional disorder, congenital or developmental disability, or the aging process, in order to achieve optimum functioning, to prevent disability, and to maintain health.

Speech-language pathology is the provision of services to persons with impaired functional communications skills by or under the direction of a qualified speech-language pathologist as prescribed by a physician. This includes the evaluation and management of any existing disorders of the communication process centering entirely, or in part, on the reception and production of speech and language related to organic and/or nonorganic factors.

Aides (Column 7)--Included in this classification are specially trained personnel employed for providing personal care services to patients. These employees are subject to Federal wage and hour laws. This function is performed by specially trained personnel who assist individuals in carrying out physician instructions and established plans of care. The reason for the home health aide services must be to provide hands-on, personal care services under the supervision of a registered professional nurse.

Aides may provide personal care services and household services to maintain a safe and sanitary environment in areas of the home used by the patient, such as changing the bed or light cleaning and laundering essential to the comfort and cleanliness of the patient. Additional services include, but are not limited to, assisting the patient with activities of daily living.

All Other (Column 8)--Employees in this classification are those not included in columns 1 through 7. Included in this classification are dietary, spiritual, and other counselors. Counseling Services must be available to both the terminally ill individual and the family members or other persons caring for the individual at home. Counseling, including dietary counseling, may be provided both for the purpose of training the individual's family or other care giver to provide care, and for the purpose of helping the individual and those caring for him or her to adjust to the individual's approaching death. This includes dietary, spiritual and other counseling services provided while the individual is enrolled in the hospice.

Total (Column 9)--Add the amounts of each cost center, columns 1 through 8, and enter the total in column 9. Transfer these totals to Worksheet K, column 1, lines as applicable. To facilitate transferring amounts from Worksheet K-1 to Worksheet K, the same cost centers with corresponding line numbers are listed on both worksheets. Not all of the cost centers are applicable to all agencies. Therefore, use only those cost centers applicable to your hospice.

4059. WORKSHEET K-2 - COMPENSATION ANALYSIS - EMPLOYEE BENEFITS (PAYROLL RELATED)

Enter all payroll-related employee benefits for the hospice on this worksheet. See CMS Pub. 15-1, chapter 20, for a definition of fringe benefits. Use the same basis as that used for reporting salaries and wages on Worksheet K-1. Therefore, using the same example as given for Worksheet K-1,
