Use this worksheet only if you operate a certified hospital-based RHC/FQHC. Use only those cost centers that represent services for which the clinic/center is certified. If you have more than one hospital-based RHC/FQHC, complete separate worksheets for each hospital-based RHC/FQHC, unless the clinic/center has received prior contractor approval to file a consolidated cost report (see CMS Pub. 100-4, chapter 9, §30). Effective for cost reporting periods beginning on or after October 1, 2014, hospital-based FQHCs do not complete the M series worksheets, but must complete the N series worksheets.

This worksheet is for the recording of direct hospital-based RHC/FQHC costs from your accounting books and records to arrive at the identifiable RHC/FQHC cost. This data is required by 42 CFR 413.20. The worksheet also provides for the necessary reclassifications and adjustments to certain accounts prior to the cost finding calculations.

**Column Descriptions**

**Columns 1 through 3**—The expenses listed in these columns must be in accordance with your accounting books and records. If the cost elements of a cost center are maintained separately on your books, a reconciliation of costs per the accounting books and records to those on this worksheet must be maintained by you and are subject to review by your contractor.

Enter on the appropriate lines in columns 1 through 3, the total expenses incurred during the reporting period. Detail the expenses as Salaries (column 1) and Other (column 2). The sum of columns 1 and 2 must equal column 3.

**Column 4**—Enter any reclassifications among the cost center expenses listed in column 3 which are needed to effect proper cost allocation. This column need not be completed by all hospital-based RHCs/FQHCs, but is completed only to the extent reclassifications are needed and appropriate in the particular circumstances. See §4014 for examples of reclassifications that may be needed. Submit with the cost report copies of any work papers used to compute the reclassifications reported in this column.

**Column 5**—Add column 4 to column 3, and extend the net balances to column 5. The total of column 5 must equal the total of column 3 on line 30, if no reclassifications were reported on Worksheet A, column 4, of the appropriate line 88 and/or 89.

**Column 6**—In accordance with 42 CFR 413.9(c)(3), enter on the appropriate lines the amounts of any adjustments to expenses required under the Medicare principles of reimbursement. (See §4016.) Submit with the cost report copies of any work papers used to compute the adjustments reported in this column.

**NOTE:** The allowable cost of the services furnished by Public Health Service personnel may be included in your hospital-based RHCs/FQHCs costs. Obtain this amount from your contractor, and include this as an adjustment to the appropriate lines on column 6.

**Column 7**—Adjust the amounts in column 5 by the amounts in column 6, and extend the net balance to column 7. The total facility costs on line 32 must equal the net expenses for cost allocation on Worksheet A for the hospital-based cost center.
