#### 4071. WORKSHEET N-1 - RECLASSIFICATION AND ADJUSTMENT OF TRIAL BALANCE OF EXPENSES FOR HOSPITAL-BASED FQHC

Use the N worksheet series if you operate a certified hospital-based FQHC for cost reporting periods beginning on or after October 1, 2014. Use only those cost centers that represent services for which the hospital-based FQHC is certified. If you have more than one hospital-based FQHC, complete a separate worksheet N series for each hospital-based FQHC, unless the hospital-based FQHC has received prior contractor approval to file a consolidated cost report (see CMS Pub. 100-04, chapter 9, §30).

This worksheet is for recording direct costs of the hospital-based FQHC from your accounting books and records. It also provides for the necessary reclassifications and adjustments to certain accounts. If the cost elements of a cost center are maintained separately on your accounting books, a reconciliation of costs per the accounting books and records to those on this worksheet must be maintained and are subject to review by your contractor. The cost centers listed may not apply to every hospital-based FQHC using these forms. For example, a hospital-based FQHC that does not have transportation costs will not complete line 11. Complete only those lines that are applicable.

### Line descriptions

This worksheet groups the trial balance of expenses into general service cost centers, direct patient care cost centers, reimbursable pass through costs, other FQHC services, and nonreimbursable cost centers to facilitate the transfer of costs to the various worksheets.

### General Service Cost Centers--

These cost centers include expenses incurred in operating the hospital-based FQHC as a whole that are not directly associated with furnishing patient care such as, but not limited to mortgage, rent, plant operations, administrative salaries, utilities, telephone, and computer hardware and software costs. General service cost centers furnish services to other general service cost centers and to reimbursable and nonreimbursable cost centers.

Lines 1 and 2 - Cap Rel Costs-Bldg & Fix and Cap Rel Costs-Mvble Equip--These cost centers include the capital-related costs for buildings and fixtures and the capital-related costs for movable equipment including depreciation, leases and rentals for the use of facilities and/or equipment, including electronic health records systems, interest incurred in acquiring land and depreciable assets used for patient care, insurance on depreciable assets used for patient care and taxes on land or depreciable assets used for patient care, and, software and hardware updates to electronic health record systems. Do not include costs incurred for the repair or maintenance of equipment or facilities; amounts specifically included in rentals or lease payments for repair and/or maintenance agreements; interest expense incurred to borrow working capital or for any purpose other than the acquisition of land or depreciable assets used for patient care; general liability insurance or any other form of insurance to provide protection other than the replacement of depreciable assets; or taxes other than those assessed on the basis of some valuation of land or depreciable assets used for patient care. However, if no amount of the lease payment is identified in the lease agreement for maintenance, you are not required to carve out a portion of the lease payment to represent the maintenance portion. Thus, the entire lease payment is considered a capital-related cost subject to the provisions of 42 CFR 413.130(b).

Line 3 - Employee Benefits--This cost center includes the costs of the employee benefits department. In addition, this cost center includes the fringe benefits paid to, or on behalf of, an employee when a provider's accounting system is not designed to accumulate the benefits on a departmentalized or cost center basis. 4071.1. WORKSHEET N-2 - CALCULATION OF HOSPITAL-BASED FQHC COST PER VISIT

The purpose of Worksheet N--2 is to (1) summarize the hospital-based FQHC medical and mental health visits furnished by practitioners, including health care staff and physicians under agreement, and (2) apportion overhead costs to hospital-based FQHC services to determine the average cost per visit for a medical visit and a mental health visit, by practitioner.

Column 1--Enter the total cost for each practitioner from Worksheet N-1, column 7, as indicated on the worksheet.

Column 2--Enter the total medical and mental health visits actually furnished to all patients by each practitioner during the cost reporting period. Each visit to the hospital-based FQHC by the beneficiary counts as a single visit, even in the case where a beneficiary returns to the hospital-based FQHC in the same day for a subsequent illness or injury. A beneficiary can have up to three medical visits in a day to include the initial visit and two subsequent visits for illness or injury.

**NOTE:** Column 2, line 11 must equal Worksheet S-11, Part III, column 5, sum of lines 2 and 4. For each line 1 through 10, column 2 must equal the sum of columns 7 and 8.

Column 3--Use this column to allocate costs associated with other direct care costs, sum of Worksheet N-1, column 7, lines 9, 32, 34, 35, and 36. Calculate the UCM related to other direct care costs by dividing the sum of Worksheet N-1, column 7, lines 9, 32, 34, 35, and 36, by Worksheet N-2, column 2, line 11, total medical and mental health visits, and enter the result on line 12. Calculate the costs for lines 1 through 10 by multiplying the visits on each corresponding line, column 2 times the UCM on line 12.

Column 4--Use this column to allocate general service costs, sum of Worksheet N-1, column 7, line 13, minus line 9, plus Worksheet B, Part I, line 89, column 26, minus Worksheet B, Part I, line 89, column zero. Calculate the UCM by dividing Worksheet N-1, column 7, line 13, minus line 9, plus Worksheet B, Part I, line 89, column 26, minus Worksheet B, Part I, line 89, column zero, by Worksheet N-1, column 7, line 100, minus Worksheet N-1, column 7, line 13, plus line 9, and enter the result on line 12. Allocate the general service cost attributable to each practitioner on lines 1 through 10, by multiplying the UCM times the sum of the amounts in columns 1 and 3, for each corresponding line.

Column 5--Enter the sum of columns 1, 3, and 4, for each practitioner.

Column 6--Calculate the average cost per visit by each practitioner by dividing the total cost in column 5 by the total visits in column 2. Enter the result in column 6.

Column 7--Enter the total number of medical visits included in column 2, provided to all patients by each practitioner during the cost reporting period.
